I don't drink) . Music in SMDS sms cannot be received at an enterprise number, except at a directory of numbers assigned for SMDS. If a directory of numbers is assigned to SMDS for an enterprise number, all incoming SMS messages to that directory, including Music in SMDS sms, will be received at that directory. SMS texts from sending organizations can be received at any number. SMDS is a specialized transmission protocol that is not intended for dial-up networks. Instead, SMDS service is intended to replace the transmission of traffic between a caller using a TTY or data modem (network-based) to the caller's POTS (plain old telephone service) network connection. In AT&T's first generation InterSignal service,
